(Include an Engineer's Certified Cost Estimate of work)

Permit Conditions:

It shall be the responsibility of the Engineer\Architect, the Owner\Developer and the Contractor to provide and abide by the following:

1. To be responsible for the preparation and execution of the maintenance of traffic, obtain the required approvals, and take all the necessary precautions to protect the public.
2. To advise the Fire, Police and Public Services Department in advance of any blockage of through traffic by the above work, and upon termination of such blocking.
3. To call for utility location as stated in the State Statue (chapter 556, F.S.)
4. Not to share the same trench with the water and wastewater lines.
5. To do all the work in compliance with the applicable standards of the agencies having jurisdiction, to call for inspections, and to properly restore the ground and the infrastructure to its original condition.
6. To remove or relocate the utility/facility as directed by the City, at no cost to the City, when the utility/facility conflicts with the location of existing or future City improvements.
7. To guarantee the above restoration for a period of one year from completion and to immediately repair it, should the restoration become unsatisfactory to the City.
8. To comply with all other conditions and regulation concerning the use of the City's Rights-of-Way as set forth in the City's Code of Ordinances.
9. To obtain all necessary permits that may be required from other agencies, such as FDEP, SFWMD, FDOH, BCTED, USACOE, FDOT, etc. and to comply with the requirements of such permits.
10. All utilities installed using direction bores shall be minimum debt of 15 feet below ground except at entry and exit pits.
11. Prior to requesting utility locations through the Sunshine One Call, the contractor must hold an on-site meeting with a representation from Public Services Department. The purpose of the meeting is to confirm proposed alignment as well as location of entry and exit pits in the field. Call (954) 924-6805 X3882 to request a meeting. Following the Sunshine Utility locations and prior to commencement of construction, the contractor shall receive a sketch depicting approved field alignment of proposed construction from the Public Services Department, should this be necessary.
12. **Provide a stake with a permit number for the overnight open ditch or any open ditch that stays longer than a day.**
